PRESENTATION OF CHAD

Chad, a country in the heart of Africa, shares borders with Libya, Niger, Nigeria, Cameroon, Central African Republic and Sudan. Geographically and culturally, Chad is a crossing point between North Africa and sub-Saharan Africa.

With an area of 1,284,000 km², it is the fifth largest country in Africa.

President of the Republic : IDRIS DEBY ITNO

Official languages : French and Arabic

Capital : N'Djamena

Time zone : UTC + 1

Total population : 14,899,994 inhabitants.

Currency : CFA Franc (XAF)

Religions : Islam, Christianity and Animism

GEOGRAPHY

The country is located between the 7th and 24th degrees North latitude on the one hand, and the 13th and 24th degrees East on the other. The majority of the population lives in the south. The density ranges from 54 inhabitants per km² in the Logone basin to 0.1 persons per km² in the northern desert.

Chad is a very hot and dry country overall. The country has four bioclimatic zones. In the desert north (Sahara), the annual rainfall is less than 200 mm to a minimum of less than 10 mm and the population is largely nomadic, with herds consisting mainly of camels and small ruminants. The central transition zone (Sahel) receives between 200 and 600 mm of precipitation per year and the vegetation varies between steppe and savannah.
